Hello Jaguar Community,

In the early summer of 2022, Falls Church High School (FCHS) embarked on a four-year, full-building renovation project. The renovation plans include updates to our indoor athletic facilities, specifically building a brand new weight room and athletic training facility. We are very excited for these new & upgraded athletic facilities, which are expected to be completed mid-2026.

The Fairfax County Public Schools' (FCPS') renovation budget only covers minimal equipment and supplies for athletics. Recently, we have seen a significant increase in the costs associated with these types of equipment and supplies. These combined items have increased the amount of money needed to upgrade the weight room and equipment. **All FCHS athletic programs and physical education classes will benefit from the weight room renovations.**

The Falls Church Activities Department & the Athletic Boosters have initiated a fundraising campaign to supplement the money needed to fund the weight room project. If enough funding is raised, we also hope to support the athletic training facility's need for additional equipment and supplies. Please consider donating at: <http://fchsathleticboosters.org/renovation> **Donations are tax deductible.**

Renovation Project Estimate Budget

Description	Estimate Cost
Weight Room Flooring and Installation	\$28,000
Weight Room Weights, Racks, barbells and dumbbells	\$110,000
Weight Room Other (medicine balls, TRX, sled etc.)	\$2,500
Total Weight Room	\$140,500
Athletic Training Room	\$20,000
GRAND TOTAL ESTIMATE BUDGET	\$150,500
Fundraising Target	\$80,000-100,000

Thank you,

Gregory Weisbecker, Director of Student Activities
